# OUR PODIATRIST

## Step 1

Our podiatrist identifies and discusses with you the required products to improve your mobility, independence and decrease the risk of falls, injuries and infections.

## Step 2

Our office will submit the product request to your Coordinator for approval.

**This process may take several weeks and you may need to follow this up with your Coordinator.**

## Step 3

Once we have received the approval from your Coordinator via email, our podiatrist will order your products.

## Step 4

Our Podiatrist will fit you with your approved products at your next scheduled podiatry appointment.

**Please note it may take up to 12 weeks from consultation to fitting of your products.**

**This service at times can be quite lengthy however, we pride ourselves on providing the highest level of care to ensure each of our services are individualised and patient focussed.**
