PODIATRY & NDIS

Why Podiatry is important?

Podiatry is key in injury and falls prevention and maintaining and improving independence, mobility, overall health and wellbeing and quality of life. We work with each participant to understand their personal health goals and develop a plan together, to achieve their objectives and ensure they receive the best level of care.

How is this achieved?

Podiatry Services SA provides the following NDIS services:

- ✓ Therapeutic Support (CB Daily Activity)
- ✓ Foot and leg assessments
- ✓ Diabetes, circulation, nerve assessments
- ✓ Biomechanical and gait examinations
- ✓ Podiatry Foot Care

Consumables

- ✓ Circulation socks
- ✓ Falls prevention socks
- ✓ Podiatry creams
- ✓ Other necessary small cost items to assist with increasing independence, mobility, health and wellbeing

Assistive Technology

- ✓ Medical Grade Footwear
- ✓ Custom Made Foot Orthotics

podiatryservicessa.com

What's next?

To determine if you qualify for our NDIS services, our staff require the following documentation in hard copy or via email, prior to your initial consult:

- ✓ Participant's NDIS Number
- ✓ Copy of the participant's NDIS plan or at minimum NDIS goals
- ✓ Details regarding funding for Therapeutic Support e.g. CB Daily Activity, Assistive Technology
- ✓ Completion of the Podiatry Services SA NDIS Patient Referral Form

If you are a NDIS participant or acting on behalf of a NDIS participant and would like some assistance with organising an initial consult please contact our friendly team at Podiatry Services SA.
